

Did you know the church parking lot and garage are being transformed into a Family Life Center?

Many fun activities are planned there this year for example, family movie nights complete with concessions, Children/Youth and Family program activities, basketball, badminton games, weekly pickleball matches, a citywide pickleball tournament, volleyball, dodge ball, and foursquare, to mention a few.

This has been made possible by your Administrative Council who voted to use the "New Ministry Fund", to complete these improvements to the garage and parking lot. These are funds already on hand and not part of the general operating budget.

These improvements are part of our missional priorities listed below.

1. Develop Children/Youth/Family Ministries,
2. Increase the Vitality of Our Congregation
3. Maintain or Enhance The Positive Presence In The Community

We are already seeing signs of success with the increase in the number of people participating in current and new ministries.

No General Fund monies have been used for these improvements.
